Dear Parent/Guardian of Austin Woodall:

This report shows Austin's scores on the California Assessment of Student Performance and Progress (CAASPP) for English language arts/literacy and mathematics. These tests are based on California's goal of preparing students for college and career.

Austin's scores are just one measure of progress at school. These results should be considered along with other information—such as classroom tests, assignments, and grades.

Students achieve more when their parents are involved in their learning. Please use the resources outlined below to find out more about how you can help Austin continue to make progress and prepare for a bright future.

Sincerely,

Tom Torlakson

Tom Torlakson,
State Superintendent of Public Instruction

Statewide Assessments: One Measure of Austin's Progress

CAASPP results give us one measure of how well students are mastering California's challenging academic standards. The skills called for by these standards—the ability to write clearly, think critically, and solve problems—are critical for preparing students for college and a 21st-century career.

What do my child's scores mean?
There are four levels of scores for ELA and mathematics for 7th grade. Achievement levels "Standard Met" and "Standard Exceeded" are the state targets for all students.

Grade 7	**Standard Not Met** Level 1	**Standard Nearly Met** Level 2	**Standard Met** Level 3	**Standard Exceeded** Level 4
ENGLISH LANGUAGE ARTS/LITERACY (ELA)	2258-2478	2479-2551	2552-2648	2649-2745
MATHEMATICS	2250-2483	2484-2566	2567-2634	2635-2778

Score ranges for each achievement level are different for each grade, and the standards for the next grade are higher than for the previous grade. As a result, students may need a higher score to stay in the same achievement level as the previous year.
